## **Carl Zeiss – Social responsibility and sustainability**

### **Carl Zeiss as an employer**

Carl Zeiss places great value on the advancement and development of its staff. The company trains young people and enables university graduates to start their professional careers. The company continually trains its employees with special programs.

### **Commitment to education and research**

In accordance with the statutes of the Carl Zeiss Foundation, Carl Zeiss supports not only projects, initiatives and institutions that arouse the interest of children and young people in science and technology, but also scientific fields of study at universities.

### **Social responsibility**

In line with the constitution of the Carl Zeiss Foundation, Carl Zeiss supports science and education, and social and cultural facilities at its corporate sites. With the Carl Zeiss Promotion Fund for Oberkochen/Aalen and Jena, the company is pursuing a sustainable concept for regional engagement. The fund promotes activities in the areas of society, social issues, youth and culture, and sports.

### **Environmental protection**

Environmental protection is anchored in the company's core values. The responsible use of natural resources is a way of life at Carl Zeiss. From the development and manufacture of products right up to their shipment, the company takes environmental aspects into account at all times. All German production sites and a number of foreign subsidiaries are certified in accordance with international environmental management standard ISO 14001.
